

## As manufacturing processes are enhanced through new technology, these changes can also present risks.

### Manufacturers errors & omissions

Errors & Omissions (E&O) is third-party coverage that extends basic General Liability coverage to indemnity for financial loss caused by the policyholder's negligence in the design, manufacture or installation of a product.

Amerisure's E&O coverage helps manufacturers by providing valuable protection beyond typical liability insurance, covering not just the customer's financial loss, but also your potential legal costs.

### When does E&O coverage begin?

Manufacturers E&O coverage is claims-made coverage. The claim must be made during the policy period for coverage in that policy period to apply.

### Why Amerisure's E&O coverage?

- Helps protect from lawsuits alleging a manufacturer is responsible for financial loss
- Maintains adequate coverage while protecting your balance sheet
- Provides extended reporting periods to submit claims made during the policy period

Amerisure has protected the manufacturing industry for decades. To add or change your E&O coverage, contact your Partners For Success® agency today.

Coverage available at limits of \$100,000, \$300,000, \$500,000 or \$1,000,000 with deductibles up to \$25,000. Available limit subject to underwriting discretion. Rate structure is developed based on hazard classification, limit and deductible. Price of coverage is based on a rate on modified GL completed operations premium. This is only a summary of the coverage and limitations, not a contract, and is provided for informational purposes only. If there is any conflict between the information contained in this document and the E&O Coverage form, the provisions of the Coverage form prevail.
